**DISCOVERING ROMAGNA****R****ROMAGNA, PLEASED TO MEET YOU***What makes us so special***A smile**

In Romagna we have fun all day, every day. Smiling brings with it many benefits and the one that stands out in particular is our ability to live every minute of the day with joy and a positive approach: Romagna, just saying it brings a smile to your face.

**With our feet in the sand**

Where can you sip a delicious coffee with wonderful sea views, surrounded by sandcastles, relax doing yoga at dawn or walk barefoot on the sand until the sun finally sets? So many questions, but only one answer - in Romagna.

**The wonder of nature**

Parks and nature reserves that will amaze visitors, along paths and in underground caves where you can abandon yourselves to the charm of unspoilt nature, rich in colours, sounds and vitality that will help you leave behind the hubbub of the city and tune into the bellows of the deer or the song of the nightingales.

**Two thousand years of history**

The land that Julius Caesar chose to lay the foundations of the Roman Empire: stubborn, strong and brave, just like the noble leader. We look to the future, proud of our roots and the past millennia that made Romagna the cradle of one of the most important civilisations.

**In every city a castle**

A land of beauty and fortresses, memories of the past and the great seignories enclosed in our castles, symbols of power and wealth that still astound us thanks to their majesty, the imposing remains of a history with a thousand different facets.

**The land of champions**

People born in Romagna learn to ride a bicycle before they learn to walk. Here, any excuse is a good excuse to get on our bikes and set off around our hills, mountains and parks; every ride affords a wonderful sensation of freedom and sights of rare beauty.

**The world's biggest restaurant**

Mention great food and Romagna immediately springs to mind. The flavours of our land are an asset we honour every day at the table, always in great company. Passion, culture and tradition are the ingredients that make our food an Italian excellence around the world.

**The hospitality of culture**

The land of Romagna is millennia old with a rich heritage of monuments, great names and works of art in a blend of ancient history, cinema and theatre. In our cities we are surrounded by timeless artistic delights, bearing witness to a land that is keen to preserve and is rightly proud of its past.

**RICCIONE****WARM WELCOME AND HOSPITALITY**

*These are the typical features of Riccione identity, a town that doesn't forget tradition even if it looks ahead to change and new tendencies.*

As the time has gone by, the beach has changed too and has been provided with modern bathing establishments, well equipped and endowed with technological system. The hotels, the sea promenade, the historic streets for walking and shopping too have been involved in the process of change and can proudly keep up with the new buildings dedicated to sports and leisure, conferences, business and events.

**The town of Riccione is known as the "Green Pearl of the Adriatic sea"**, a kind of jewel that reveals itself through unique places of interest and attractions. The heart of the town is Viale Ceccarini, the street that leads from the railway station to the sea: fashion boutiques and brand stores display new trends and tendencies alongside a vast array of cafes and restaurants till the pedestrian sea promenade furnished with fountains, flower beds and wooden benches.

The tourist information centre is located inside Palazzo del Turismo, the building that dates back to 1938 when it opened as the first place on the Adriatic coast dedicated to tourism advertising.

The harbour is a special place for enjoying the sea to the utmost at sunset or at dawn, seated in a cafe or in a fish restaurant, or simply on a solitary bench.

**The territory nearby.** Once upon a time, amidst the woods, there was a place well known throughout Europe for wine and food traditions.

In that place in the Middle Ages, many castles were built, in which princes reigned with princesses and knights. The villages developed around the castles with arts and crafts markets, the stalls and shops of woodcarvers, goldsmiths, and farriers.

In that place you could taste olive oil and fresh bread, the products of nature, salumi and cheese, homemade pasta, fresh fish. And "piada" too, a flat and soft kind of bread, whose tradition went back to 1200 BC.

Riccione is easy to reach from any national or international destination by car, by train and by plane.
